ACTIVITIES TO BE DONE PRIOR TO START OF COURSE

GRAMMAR

All our current students agree that they wish they had begun studying the grammar before the start of the course, particularly after such a long summer break away from the Spanish classroom!

Do not be afraid of grammar! Students are wary at the beginning but increased confidence soon dispels any concerns they may have had. You cannot study a language at Advanced level without a good awareness of grammar. Grammar need not be boring!

INTRODUCTION

At A Level students follow the Edexcel A Level (9SP0) course.

The course provides a logical progression from GCSE. Students continue to consolidate the grammatical aspects of the language whilst exploring more advanced topic areas relating to Spanish and South American society, culture and history.

The A Level course rewards Spanish language skills, research, interpreting and analysis.

The course allows students to develop language skills to communicate effectively, accurately and confidently on a wide range of topics.

During this course, you will read and listen to authentic foreign language materials and will study aspects of contemporary society, cultural background and heritage of the Hispanic world. You will have opportunities to develop your understanding and awareness of moral, spiritual, ethical, environmental, and health issues.

You will extend and develop your knowledge of the grammar and vocabulary and will use this to speak, read, write and listen to the language. You will learn to translate from Spanish to English and English to Spanish. You will study a film and a play.

You will also learn how to develop an argument and to analyse and evaluate, in speech and in writing.

In addition you will:

- Be an effective communicator
- Speak and write the language in a range of different situations and for different purposes
- Use the language to express facts and ideas
- Use the language to present explanations, opinions and information.

The course is delivered via:

- a variety of texts & resources.
- online resources
- -an ICT media suite.
- opportunity to visit Spain (exchange programme) (*subject to demand*)

COURSE REQUIREMENTS

The entry requirements for Spanish are:

An interest in current affairs both national and international is a distinct advantage as is an ability to think analytically and to present your thoughts and opinions in a sensible and logical manner.

A Level Spanish relies heavily on an understanding of the issues covered as well as a high and accurate standard of language.

This is an advanced level course, so you will be expected to have undertaken a GCSE course (ideally Grade 7,8,9).

You will also be asked to attend extra speaking practice throughout the year.

ASSESSMENT

This is a linear course which is assessed at the end of the academic year. The final examinations test you in the four skills of speaking, reading, writing and listening. There are three units at the end of the two year course. The papers include comprehension, translation and your responses to a Spanish text and film. There is no coursework component.

WEIGHTING

	WEIGHTING
PAPER 1 (listening, reading & translation)	40%
PAPER 2 (written response to works & translation)	30%
UNIT 3 (oral)	30%
